

GET SUPPORT WITH ACCESSING WINREVAIRTM (sotatercept-csrk) THROUGH THE MERCK ACCESS PROGRAM

Now that you have been prescribed WINREVAIR, you may have some questions. The Merck Access Program (MAP) can help. Through MAP, you can talk with a Patient Navigator, a person who will:

- > Walk you through the process of getting your medicine
- > Answer your questions about cost and insurance
- > Provide information and resources

There are 3 steps to getting your medicine with help through MAP:

1

JOIN THE MERCK ACCESS PROGRAM

You must join MAP to get help from a Patient Navigator. To join:

- 1) You and your healthcare provider will complete your enrollment
- 2) If you haven't already given consent, you will need to sign and submit a Patient Consent Form. You can find this form at merckaccessprogram-WINREVAIR.com

2

TALK WITH YOUR MAP PATIENT NAVIGATOR

After you join MAP, your MAP Patient Navigator will call you from (888) 637-2502. You can use your smart phone's camera to scan the QR code and save this number in your contact list.

Your Patient Navigator may be able to tell you about:

Your insurance benefits
for WINREVAIR

Possible out-of-pocket costs
for WINREVAIR

Co-pay assistance options including
the WINREVAIR co-pay coupon for
eligible, privately insured patients

Your Patient Navigator will then:

- > Tell your healthcare provider about your insurance company's coverage requirements
- > Keep you updated on the status of your insurance coverage for WINREVAIR
- > Send your prescription to either Accredo Health Group, Inc. or CVS Specialty Pharmacy, based on your insurance plan and preference
- > Provide the name of the Specialty Pharmacy that will be contacting you

Here's how getting WINREVAIR from a Specialty Pharmacy works:

- 2) Your Specialty Pharmacy will work with you and your healthcare team to determine whether WINREVAIR is covered by your insurance. They should keep you updated throughout the process.
- 3) Next, your Specialty Pharmacy will call you to schedule shipment of your medication.
- 4) After you receive your medication, make sure that it is stored correctly.
- 5) If you and your healthcare provider have chosen additional support, such as in-person or virtual Supplemental Nurse-Supported Education, your Specialty Pharmacy will help you schedule this.
